# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 16-28, 2007.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov)

Thank you for your cooperation in the CEQA review process.

## ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE 1999 through 2006

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Friday, February 16, 2007</u></b>			
2005071037	Cheyenne Development Review Permit DR05-04 / Tentative Map TM05-03 Santee, City of Santee--San Diego The proposed project is a Tentative Map to subdivide 12 parcels of land totaling 118.57 acres into 39 residential lots and open space lots totaling approximately 82 acres, a Development Review Permit for the development of approximately 37 acres of the site for 26 single family homes in the R1-A zone, and 13 custom homes in the HL zone. The project will have access from Magnolia Avenue and Princess Joann Road.	<b>EIR</b>	04/02/2007
2005102088	Napa County General Plan Update Napa County American Canyon, Calistoga, Napa, St. Helena, Yountville--Napa General Plan Update including an equal-weight analysis of up to three alternatives.	<b>EIR</b>	04/02/2007
2005121041	Big West Oil, LLC, CUP #3, ZV #3, Map 102-33 Kern County Planning Department Bakersfield--Kern Big West seeks approval from the Kern County Planning Department of a Conditional Use Permit (CUP) for a liquified petroleum storage tank more than 2,000 gallons and 4 injection wells for waste and a height variance for up to 231 feet for the cooling towers. The applicant will install new processing units and associated structures and to modify associated structures within the existing refinery in order to increase production of gasoline and diesel fuels that meet State of California specifications.	<b>EIR</b>	04/05/2007
2006081077	525 Broadway Mixed-Use Project EIR Santa Monica, City of Santa Monica--Los Angeles The proposed project is located on 37,450 square feet (0.86 acre) at the northwest corner of 6th Street and Broadway. The site consists of one parcel and is currently occupied by an existing 35,290 square foot, 3-story office building and two-level parking structure. The proposed project involves demolition of all existing structures on the site and construction of a new 6-story mixed use development consisting of 65 two-bedroom units, 56 one-bedroom units, and 4 studios for a total of 125 residential condominiums and approximately 8,968 square feet of gross commercial space that is being analyzed as casual dining. A total of 352 parking spaces will be provided in a 4-level subterranean parking garage. The applicant has applied for the following discretionary permits: a Development Review permit (DR 06-003) for a project exceeding 30,000 square feet of floor area, a Design Compatibility Permit (DCP 06-002) for a condominium project in a commercial zone, and a Vesting Tentative Tract Map (TM 06-005) for a one-lot subdivision for condominium purposes.	<b>EIR</b>	04/02/2007
2005121164	California State University, Fresno: Campus Pointe Project California State University Trustees Fresno--Fresno Residential, commercial, and hotel development to be located on land owned by the Trustees of California State University. The CSU is authorized to implement real property development project that further the educational mission of the campus.	<b>FIN</b>	

## CEQA Daily Log

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Friday, February 16, 2007</u></b>			
2006071080	<p>99 Pasadena Avenue Development South Pasadena, City of South Pasadena--Los Angeles</p> <p>The applicant proposes to expand the existing office building by adding 20,850 square feet of office space and 134 parking spaces. The proposed office building would be attached to the existing office structure. The proposed project includes a General Plan Amendment to change the City's General Plan Land Use Map by designating a portion of Marmion Way and the irregularly shaped public right of way, proposed for vacation, as Business Park, Research and Development and Light Manufacturing and a Zone Change to classify these same areas as Business Park (BP) consistent with the proposed General Plan land use designation.</p>	<b>FIN</b>	
2006101011	<p>Live/Work Project at 145 Pasadena Avenue South Pasadena, City of South Pasadena--Los Angeles</p> <p>The applicant is proposing to construct 49 one-and-two story live/work units on a 2.23 acre site. A below grade parking structure with 134 parking spaces is proposed. The project will also include a community exercise room and a community multi-purpose room. The proposed design features composite shingle roofing, plaster walls, and aluminum doors and windows in a contemporary architectural style. The site contains two (2) nonresidential buildings which will be demolished as part of the project.</p>	<b>FIN</b>	
2006121094	<p>El Monte Retail Project El Monte, City of El Monte--Los Angeles</p> <p>The project involves the phased demolition of both the existing 106,550 square foot Sam's Club and the adjacent 36,293 square feet of retail uses, and the reconstruction of an approximately 135,000 square foot Sam's Club. In addition, a gas station will be constructed in the southwestern corner of the project site, along Lower Azusa Road.</p>	<b>FIN</b>	
2007021067	<p>Sepulveda Blvd Reversible Lane, Bike Lane &amp; Intersection Improvement Project Los Angeles, City of Brentwood--Los Angeles</p> <p>Street widening on Sepulveda Boulevard in spot locations to add turning lanes, bike lanes, and a reversible lane in tunnel at Mulholland Drive. Construction activities include two new retaining walls, rock fall fence, utility relocations, new street lights, new paving, temporary and permanent easements in Caltrans and MWD right-of-way, vegetation and tree removal, grading and excavation. Construction will begin in June 2007 and will last approximately 18 to 24 months.</p>	<b>MND</b>	03/19/2007
2007021070	<p>Plot Plan No. 22254 (Fast Track No. 2006-22) Riverside County Planning Department Wildomar--Riverside</p> <p>The project proposes to construct a Public Utility Service Center for Southern California Edison, which is composed of a 60,636 sq. ft. three-story Office Building, a 21,100 sq. ft. two-story Yard Management Building, a 17,750 sq. ft. two-story Garage Building, a 20,300 sq. ft. single-story Truck Canopy (truck parking area), a 100,000 sq. ft. Outdoor Storage Area, two Hazardous Materials and Hazardous Waste Storage Areas with 500-gallon Waste Oil Containers located within the Garage Building and the Yard Management Building, a Fuel Station within the Outdoor Storage Area for two 12,000-gallon Fuel Tanks.</p>	<b>MND</b>	03/19/2007

2007021074	<p>Improvements Related to Wells 16, 17 and 49 West Valley Water District San Bernardino--San Bernardino</p> <p>The District proposes to undertake the following improvements, located north of the District's Zone 3 Pressure Zone, within the cities of Rialto and San Bernardino:</p> <ul style="list-style-type: none"> <li>- Installation of a new 12-inch water line for Well No. 17 that will extend from approximately the intersection of Merrill Avenue and Eucalyptus Avenue, south on Eucalyptus Avenue to Jefferson Avenue and east onto the existing Rialto High School property and then onto the adjoining District property containing Reservoir 2-1.</li> <li>- Installation of dual treatment tanks for water extracted from existing groundwater Wells Nos. 16 and 17 and proposed Well No. 49, to be located adjacent to east side of existing Reservoir 2-1 on District property in the City of San Bernardino.</li> <li>- Installation of Well No. 49 adjacent to the easterly side of existing Reservoir 2-1 and next to the proposed well treatment facilities in the City of San Bernardino.</li> <li>- Additional pipelines will need to be installed on District property adjacent to Reservoir 2-1 for Well No. 49 and to provide connections to each of the dual set of well head treatment facilities for each water well.</li> </ul>	<b>MND</b>	03/19/2007
2007021076	<p>Reclaimed Water Pipeline Installation Victorville, City of Victorville--San Bernardino</p> <p>A proposal to install a reclaimed water pipeline within the dedicated right-of-way of Luna Road, for a stretch of approximately three miles between White Road and Bellflower Street. The proposed pipeline will connect to an existing line extending north at the intersection of White Road and Luna Road, extend east and terminate at the intersection of Luna Road and Bellflower Street. The pipeline will allow the use of non-potable water to be used for watering landscaped areas and parks in the area.</p>	<b>MND</b>	03/19/2007
2007021078	<p>Western Municipal Water District's 2320 Pressure Zone, Phase I, Reach 2 Pipeline Western Municipal Water District Riverside--Riverside</p> <p>An Initial Study has been prepared to assess the potential for any significant environmental effects associated with the Western Municipal Water District's ("the District") 2320 Pressure Zone, Phase I, Reach 2 Pipeline. The purpose of the proposed project is to ensure adequate water supply and service to the District's customers under the South Added Facilities Area Master Plan. Phase I of the interim plan includes the placement of approximately 5016 linear feet of a 24-inch diameter pipeline in the District's easement within the Rolling Meadows Drive right-of-way (from Rocky Bluff Road to Idaleona Road), designed to convey potable water from the existing 0.5 million gallon Hillside Tank pump station.</p>	<b>MND</b>	03/19/2007
2007021088	<p>Well #11 and Pipeline Project Sunnyslope County Water District Hollister--San Benito</p> <p>The project is the installation of Water Well #11 and associated 2,835-foot long, 14-inch wide pipeline along Southside and Enterprise Roads for the Sunnyslope County Water District. The well would produce approximately 1,000 gallons per minute, and would provide a domestic water supply for current customers and future approved building allocations for the City of Hollister and the County of San Benito. An approximately 10,000 square foot area will be developed at the wellhead, with asphalt paving, security lighting, fencing, a diesel back-up</p>	<b>MND</b>	03/21/2007

2006112067	PA-0600114, Majors Revisions of Approved Actions for an Approved Minor Subdivision San Joaquin County Community Development Department --San Joaquin Revisions of Approved Actions for an approved Minor Subdivision to remove Public Works' condition requiring Lauffer Road to be dedicated and improved to County standards.	<b>Neg</b>	03/19/2007
2007021068	Rapid Infiltration and Extraction (RIX) Enhancement Project San Bernardino, City of Colton--San Bernardino The City of San Bernardino Municipal Water Department is acting as CEQA lead agency for the Coton/San Bernardino Regional Tertiary Treatment and Water Reclamation Authority's expansion of its existing Rapid Infiltration and Extraction (RIX) facility. The RIX facility provides tertiary treatment of secondary treated effluent produced from the cities of San Bernardino and Colton wastewater treatment plants. The RIX facility was designed to provide tertiary treatment for 40 MGD of secondary treated effluent through percolation and extraction of treated effluent. However, due to infiltration issues at the existing percolation basins, the RIX facility is not operating at its design capacity. The purpose of this expansion is to return the RIX facility to its original design capacity by adding additional percolation basins and installing a tertiary treatment unit as a backup treatment system for the percolation basins.  The proposed project will benefit the cities of Colton and San Bernardino by providing a reliable method of treating wastewater generated within those cities. This project will also benefit water quality in general by providing a reliable method of achieving water quality goals for the Santa Ana River Basin by allowing the RIX facility to comply with its waste discharge requirements.	<b>Neg</b>	03/19/2007
2007021069	California School for the Deaf - Riverside - Career Technical Education Complex and Service Yard Project Education, Department of Riverside--Riverside The project entails the development of a Career/Technical Education Complex on a 4-acre site located at the northeast corner of the 70-acre California School for the Deaf (CSDR) campus.	<b>Neg</b>	03/19/2007
2007021072	PM062347/RENT200500057 Los Angeles County Department of Regional Planning --Los Angeles The proposed project is a request for a parcel map to subdivide one parcel into two 5.10-acre single family lots. An estimated 600 cubic yards of grading would be needed and will be balanced on site. 70th Street East and 67th Street East will provide ingress and egress access to the proposed lots.	<b>Neg</b>	03/19/2007
2007021075	R2006-00511/RENT200600046 Los Angeles County Department of Regional Planning --Los Angeles The proposed project is for a Conditional Use Permit and Development Program to allow two four-story 100,000 square foot office buildings with 700 parking spaces. The project site consists of 5 parcels that are unified by a covenant. 45,000 cubic yards of grading is proposed. 40,000 cubic yards of excavated soil will be stockpiled on parcel 2826-007-021 per approval of PM18654. Grading activities	<b>Neg</b>	03/19/2007

	should be noted that the project site boundary, the designated mining area, and the approved reclamation plan would not change.		
1984040407	State Route 52 (East) Caltrans, Planning SAN DIEGO, SANTEE--SAN DIEGO The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0382-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, California Department of Transportation. The applicant proposes to alter the stream to construct Stage 4 of the State Route 52 project. Project activities include undergrounding the concrete-lined portion of the Fanita Creek, widening and installing rock slope protection within the remaining stretch of Fanita Creek between the concrete-lined portion and Mission Gorge Road, and the construction of two approximately 468-foot-long bridges over Forester Creek with supporting columns within it.	<b>NOD</b>	
1990020181	Precise Plan Area #20NW Modesto, City of Modesto--Stanislaus The applicant plans to develop seventy lots to accommodate seventy privately owned, senior restricted dwelling units known as Davante Senior Villas. The senior condominiums will be located on six acres at Chandon Drive. The proposed senior housing development is consistent with the use and development standards outlined in Precise Plan for Area No. 20; however an amendment is needed in order to develop condominiums.	<b>NOD</b>	
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus This is parcel division project as defined by Section II.C of the MEIR. This is an application to divide an 851,304-square-foot lot into three lots. Lot 1 (212,261 square feet) and Lot 2 (213,011 square feet) both front on East Glen Avenue. Lot 3 (426,032 square feet) fronts East Glenn Avenue just east of Reliance Street.	<b>NOD</b>	
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus The applicant proposes a rezone to a Planned Development and the construction of 9,500-square-foot mixed-use building complex located on two vacant lots at 924-930 Seventh Street. The development would include a home residence, offices, a two-story restaurant/apartment building and fifteen off street parking spaces.	<b>NOD</b>	
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus The applicant, Del Valle Corporation had asked for and received a nine-month extension of the existing vesting rights. Under Section 4-4.405(c)(1) of the Modesto Municipal Code, the Planning Commission can grant up to a one-year of vesting status. Without this extension the vesting status would have expired as of December 31, 2006.	<b>NOD</b>

1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus Rezone from R-1, P-D(503), and P-D(533) to a new P-D Zone for a multi-function ministry center at Martin Luther King Drive and Vine Street. The applicant proposes to combine three adjoining properties into one 2.56 acre site for a multi-functional ministry center featuring a new 30,000-square-foot one- and two-story building including a gymnasium and 140 off-street parking spaces.	<b>NOD</b>	
2005091142	Santa Monica College Bundy Campus Master Plan Santa Monica Community College District Los Angeles, City of--Los Angeles The Bundy Campus Master Plan is a long-range planning document that establishes a legal framework to guide the future operation and development envisioned for the campus. Buildout of the Master Plan calls for: (1) demolition of the existing two-story East Building with possible interim uses pending demolition; (2) construction a two-story New Building of similar size (approximately 38,205 sf) to be located east of the existing four-story West Building; (3) provision of ~ 780 parking spaces above and below grade; (4) access improvements including a new northeast driveway; (5) provision of a pedestrian parkway along Bundy Drive; (6) landscaping/open space elements; (7) continued use for the West Building; and (8) miscellaneous general site improvements.	<b>NOD</b>	
2006051073	Draft EIR for General Plan Amendment #2006-04, Annexation No. 75, Zone Change/Pre-Zone No. 2005-09, Annexation by Elsinore Valley Municipal Water District, and Lake Elsinore, City of Lake Elsinore--Riverside A first NOD was sent to the County Clerk and Office of Planning and Research on January 24, 2006. This has been followed by a second NOD for the second ready of Ordinance No. 1207. The project includes: a General Plan Amendment to change the site's General Plan Land Use designation from Very Low Density Residential (VLDR) and Mountainous (M) to Low Density Residential (LDR) and approval of Specific Plan No. 2006-01. The Canyon Hills Estates Specific Plan divides the project site into three basic land use categories: Residential, Public Park, and Open Space. The Residential category has two subcategories: Single Family Residential-1 (SF-1) and Single Family Residential-2 (SF-2). A total of 302 residences are proposed and approximately 149.9 acres, or more than 60% of the project site has been devoted to open space. The approved project also included Tentative Tract Map No. 34249, which permitted a subdivision of the project site into 302 single-family detached residential lots, 12 lettered lots for open space, 2 lettered lots for water tank sites and one lettered lot for a public park.	<b>NOD</b>	
2006072098	Local Funding Mechanism for Comprehensive Flood Control Improvements for the Sacramento Area; Natomas Cross Canal South Levee Phase I Improvements Sacramento Area Flood Control Agency --Sutter This project would involve constructing a cutoff wall in the westerly 12,500 feet of the Natomas Cross Canal south levee to remediate through-seepage and underseepage conditions.	<b>NOD</b>

2006082018	<p>Site 3 Firefighting Protection Training Area &amp; Site 38 Former Skeet Range Soil Removal Actions, Beale Air Force Base Toxic Substances Control, Department of Marysville--Yuba</p> <p>Site 3 is the Former Firefighting Training Area and Site 38 is the former Skeet Range at Beale Air Force Base, outside of Marysville, CA. The project involves the removal and disposal of approximately 6,000 cubic yards (cy) of contaminated soil. Approximately 4,500 cy of lead-contaminated soil will be removed from Site 38 and about 1,500 cy of dioxin-contaminated soil will be removed from Site 3. The soil is to be analyzed to be sure all soil above the interim cleanup levels is removed, and that it is disposed of in an appropriate landfill. The soil will be transported by registered hazardous waste haulers. The excavated areas will be backfilled with clean soil. Potential impacts to wetlands will be mitigated by Beale's approved wetlands preservation and restoration program.</p>	<b>NOD</b>	
2006082104	<p>Mammoth Lakes Fuel Reduction Project Mammoth Lakes, City of Mammoth Lakes--Mono</p> <p>Removal of fallen trees and brush adjacent to Town owned land adjacent to Mammoth Creek. Work will be limited to hand held tools only. No heavy equipment and no activities within 50 feet of the bank of the creek.</p>	<b>NOD</b>	
2006121050	<p>Cherry Avenue Widening Project Signal Hill, City of Signal Hill, Long Beach--Los Angeles</p> <p>The project will include right-of-way acquisition, design, and construction. The project will provide for two southbound (SB) and two northbound (NB) through-lanes, a right-turn lane for the SB approach, and dedicated left turn lanes for both NB and SB approaches.</p>	<b>NOD</b>	
2006122069	<p>Pat Stryker - Environmental Review of a Coastal Development Permit and Use Permit - B29297C/UP0718C Del Norte County Planning Department Crescent City--Del Norte</p> <p>The applicant proposes construction of a 10,000 square foot aircraft hangar at the general aviation side of Jack McNamara Field otherwise community referred to as the Crescent City Airport. The project site is among existing hangars at the airport and within the secure area. The hangar will be 100 feet by 100 feet square and have a height of 35 feet which is required in order to accommodate the dimensions of the aircraft and the height of the aircraft's tail. The aircraft is a G4. The floor design is sloped to a central drain which will include an oil/water separator. Roof drains are designed to collect roof run off and a detention basin will slow peak discharges to the adjacent drainage ditch. The project will require relocation of a fire hydrant, some paving of an existing graded and/or gravel surface to connect to taxiways, and the placement of gravel over existing graded and partially graveled surface for emergency access. The site has been tentatively approved by the FAA as the project site meets the airport runway safety zone height restrictions.</p>	<b>NOD</b>	
2007011017	<p>Balboa Marina Dock Replacement Newport Beach, City of Newport Beach--Orange</p> <p>The project proposes to replace an existing 132 slip, 27,550 sq. ft. dock with a 20,483 sq. ft. dock to accommodate 102 slips ranging from 22 to 58 feet in length. The proposed floating dock would be constructed of concrete and consist of 5 to 6</p>	<b>NOD</b>

2007028153	955 Citrus Avenue, Riverside, CA 92507, Habitat Restoration to Address Enforcement Action Fish & Game Eastern Sierra-Inland Deserts Region Riverside--Riverside To restore the Springbrook Arroyo, the Operator shall provide a conservation easement to the Riverside-Corona Resource Conservation District (RC-RCD). The conservation easement shall be no less than 40 to 50 feet wide for the length of the Springbrook Arroyo on the property. SAA# 1600-2006-0169-R6	<b>NOE</b>	
2007028154	Conversion of Female Inmate Beds to Male Inmate Beds Corrections and Rehabilitation, Department of Norco--Riverside CRC separately houses men and women inmates in dormitory-type housing within a secure perimeter. The proposed project would convert Facility IV from Females to Level II Males. This mission change will convert 800 female beds to 800 male Level II beds and will require approximately 11 additional staff. The construction includes a work change area, installing a closed circuit TV system (security cameras), expanding the visiting room, constructing a mini-exercise yard, and installing security hardware in the housing units. The CRC conversion is needed to better accommodate inmate needs based on classification requirements, educational, programming and medical and mental health care needs. The total inmate population at CRC would not exceed the current inmate population of approximately 4,856 inmates. Activation of the conversion is anticipated to be completed by the summer of 2008. The existing female inmate population will be removed through transfers to other CDCR facilities and through attrition as current female inmates reach their parole date.	<b>NOE</b>

	District will be closed for approximately 60 days starting in January of 2008 for repair work. Therefore, the District cannot receive water from this source during the tunnel repairs. The District will require an alternate source of water to continue to supply potable water to its customers and provide emergency fire flows during the planned water supply outage(s). Surface water from Pine Mountain Lake is the best apparent alternative supply. The project concept is to provide a Mobile Water Treatment Plant (WTP) to treat this supply.		
2007022090	Elk Grove Water Service Railroad Corridor Water Main Improv. Elk Grove Water Service Elk Grove--Sacramento The project consists of the installing of approximately 6,000 lineal feet of water supply pipeline and appurtenances for the purpose of providing potable water to the community of Elk Grove in south central Sacramento County. The purpose of the project is to connect the new WTF with other new and existing pipelines being constructed in local rights-of-way in Elk Grove, thereby allowing transmission of treated water for domestic use and fire suppression. The proposed pipeline alignment extends north along the Union Pacific Railroad starting at Elk Grove Boulevard for 2,400 feet, aligned 30 feet west of the tracks. From the WTF, the pipeline crosses the tracks from east to west then extends south for 3,480 feet, aligned approximately 60 feet west of the tracks.	<b>MND</b>	03/22/2007
2007021086	30th Street West and Avenue K Projects Lancaster, City of Lancaster--Los Angeles The proposed project would include a general plan amendment and zone change to redesignate the southwest project site from Urban Residential (UR) to Commercial (C) and rezone the site from single family residential, R-7,000 to Commercial Planned Development (CPD). The proposed project would redesignate the southeast project site from UR to MR1 and C and rezone from R-10,000 to MDR and CPD. Development on the southwest project site would include approximately 36,950 square feet of commercial retail facilities, and would include 207 parking spaces. The proposed project would develop the southeast site with commercial and residential uses, including approximately 42,867 square feet of commercial retail and 55 townhomes on individual lots with common open space. The commercial component on the southeast site would include 272 parking spaces, and the residential component would include 124 parking spaces (100 resident spaces, 24 guest spaces).	<b>NOP</b>	03/21/2007
2007021079	PA05-0046 (Tentative Tract Map No. 33388) Moreno Valley, City of Moreno Valley--Riverside A proposal for a tentative tract map to subdivide an 18 gross acre (16 net acre) parcel of land into 16 single-family residential lots and seven lettered lots for drainage and open space purposes.	<b>Neg</b>	03/21/2007

	system will terminate at a new meter structure that will be located adjacent to CVWD's existing Ordunio Reservoir site. CVWD will install a new on-site water main that will connect to the LADWP meter. The CVWD water main will connect to the inlet/outlet pipeline for the Ordunio Reservoir. A new chloramination system (sodium hypochlorite/aqua ammonia) and a new chloramination building will also be constructed.		
2007021082	<p>Watson Distribution Center San Bernardino County Land Use Services Department Redlands--San Bernardino</p> <p>The proposed project is a Conditional Use Permit to construct three "High Cube" warehouse buildings, with a total of 1,536,000 sq. ft., including 50,000 sq. ft. of office space, on a site that has a gross area of 71.7 acres. The percent of building coverage of the total site area is 48.8% and landscaping covers 15.2%. The project is located at the southwest corner of the intersection of Alabama Street and Pioneer Avenue, which are County maintained roads and provide access to the site. This project site is in the unincorporated portion of the County of San Bernardino in the East Valley Corridor Planning Area, in the West Redlands of Community area. It is not within the City of Redlands' Sphere of Influence. The County General Plan designates the project site as EC/PD Land Use District with an Improvement Level One (IL-1). High Cube Warehouse is defined as follows: "Warehouse/Distribution Centers are used primarily for the storage and/or consolidation of manufactured goods prior to their distribution to retail locations or other warehouse. These facilities are commonly constructed utilizing concrete tilt-up technique, with a typical ceiling height of at least 24 feet. Warehouse/Distribution Centers are generally greater than 100,000 SF in size with a land coverage ratio of approximately 50% and a dock-high loading ratio of approximately 1:5,000-10,000 SF, they are characterized by a small employment count due to a high level of automation."</p>	<b>Neg</b>	03/23/2007
2007021083	<p>IS/MND Livingston High School Master Plan Merced Union High School District Livingston--Merced</p> <p>The proposed project includes the construction, demolition, and remodel of various buildings on the existing campus, as well as expansion of 13 acres of the campus to the south of Peach Avenue to accommodate athletic fields and additional campus parking. The project will be constructed in three phases. The proposed high school currently has 1,100 students and the proposed project will provide classroom space for a maximum of 2,000 students and a staff of up to 100.</p>	<b>Neg</b>	03/21/2007

	30-foot-long, and 6-foot-wide trail is proposed behind the nature center to provide access to an elevator to the second story.		
2007021092	Construction and Operation of a New Oso Sub-Center Civil Maintenance and Mobile Equipment Building Water Resources, Department of Gorman--Los Angeles California Department of Water Resources, Division of Operations and Maintenance, Southern Field District, and the Division of Engineering, propose to construct and operate facilities at its Oso Sub-Center to accommodate office, civil maintenance, and mobile equipment repair activities. Construction in 2007 includes a 180' x 80' pre-fabricated steel building with interior plumbing, wiring, and HVAC equipment. The completed structure would dedicate space to offices, a water treatment plant, a carpentry shop, a welding shop, a mobile equipment repair bay, a vehicle washing area with vehicle washing area with vehicle wash water reclamation system, restrooms with showers, kitchenette, general storage, boat storage, oil storage, and building operation and support facilities. Minor site grading improvements will allow for paved parking and the creation of three driveway entrances from Oso Pumping Plant Road. There will be no significant adverse environmental impacts associated with this project.	<b>Neg</b>	03/22/2007
2007022086	Feather River Lodge Grading Permit, GP 1-05/06-04 Plumas County Planning & Building Services Quincy--Plumas The proposed project is a grading permit involving 4.29 acres of disturbance located on a 13.02 acre parcel. The grading activity will create an access off of State Highway 70 and create a buildable pad for a proposed 80 room motel including required parking. In addition, the project will necessitate the construction of c. 800' of wastewater line across an adjacent parcel within an existing easement. Project will also necessitate construction of a c. 2000' of water line from the intersection of Hwy. 70 and Delleker Road. This line will be constructed in the Caltrans right-of-way on Highway 70 through an Encroachment Permit. The total quantity of earth to be cut and filled is 2,782.85 cubic yards. A detailed grading plan has been submitted by CNA Engineering. This plan sets forth measures necessary to preclude adverse impacts resulting from the grading activity. The grading plan includes measures to reduce erosion, siltation and accelerated run off during construction and from the constructed facilities.	<b>Neg</b>	03/21/2007
2007022087	Tentative Parcel Map #TPM2005-0047 Yuba County Marysville--Yuba A request by Dana Lyon to divide 22.04 acres into two 5 acre parcels and one 12 acre parcel. The property is located on the north side of Hammonton Smartville Road west of McGanney Lane in the River Highlands Community Plan area. The parcel borders the Spenceville Wildlife Area.	<b>Neg</b>	03/21/2007

	related environmental mitigation and habitat enhancements along the lower American and Sacramento Rivers and their tributaries in the Sacramento metropolitan area (Sacramento). The specific project objectives are to: (1) complete the projects necessary to provide 100-year flood protection for developed areas in Sacramento's major floodplains as quickly as possible; (2) provide urban-standard ("200-year") flood protection for developed areas in Sacramento's major floodplains does not substantially increase the expected damage of an uncontrolled flood.		
2007021090	Iris Canyon Creek Reparation Monterey, City of Monterey--Monterey The Iris Canyon Creek Reparation Project will improve a 1,750 ft. stretch of creek adjacent to Iris Canyon Road. Iris Canyon Creek drains into approximately 150 acres of land. The Creek has cut a channel reaching a depth of over 12 feet with vertical unstable walls that are close to Iris Canyon Road and are undermining nearby tree roots. The project includes installing five log drop structures, grading 1,640 feet of each side of the creek's banks to a reduced slope using engineered fill as required, placing grouted rock protection according to the plans, installing earth-retaining systems and flexible channel lining, and planting the slopes with native trees and shrubs. The series of grade control structures will maintain a reduced slope and prevent further erosion along the creek. The earth-retaining structures will insure that all Monterey Pines are saved and also will protect the road from washing out in a storm. Through grading, the project estimated cut is 1,300 cubic meters and the required fill will be 720 cubic meters recycling the soil when possible. The project result will be a stable creek accessible to native wildlife.	<b>MND</b>	03/22/2007
2007021096	Conditional Use Permit No. 2006-020 and Variance No. 2006-005 (Lowe's) Apple Valley, City of Apple Valley--San Bernardino A request to construct a 171,000 square foot home improvement center which is an extension of a 488,000 square foot commercial center located to the south of the project approved by the Town in December 2005. The variance is to deviate from the maximum allowed perimeter wall height. The development includes paved parking, landscaping and lighting.	<b>MND</b>	03/22/2007
2007021098	Moreno Valley Regional Learning Center Riverside County Moreno Valley--Riverside Construction of a Regional Learning Center for the Riverside County Office of Education (RCOE) to serve approximately 250 students in alternative education, special education, and regional occupational programs (ROP). 	improvements would result in a total campus development of 58,334 square feet on 27.64 acres. No change in the 330 student enrollment is proposed; however, the school is requesting year round operations to validate the current use. Site improvements include changes to access and parking configurations, landscaping, lighting, and upgrades to the existing septic system involving installation of a consolidated leach line, underground drip system, shallow drip emitter system, and advanced treatment system. On-site parking would be increased to 180 spaces. Upper campus access would be consolidated with two of the existing access points being maintained and the others removed. The Las Palmas driveway would be expanded. The school will work with the County's Public Works Department to provide an acceptable access to the parking areas that will facilitate traffic flows on Las Palmas Drive. The student pick-up and drop-off functions would be relocated to the lower campus, in the expanded parking area, and therefore away from Paloma Drive.		
2007021103	Sorrento Valley Science Park San Diego, City of San Diego--San Diego Planned Development Permit (PDP No. 86053) to amend Planned Industrial Development Permit (PID) No. 89-0398 and construct two buildings within an existing business park. A 126-foot high/8-story building and a 75-foot high/5-story building and associated features would be constructed on a 4.13-acre parcel.	MND	03/22/2007
2007022091	Hayfork Airport Runway Lights Upgrade Trinity County Planning Department Hayfork--Trinity The project at Hayfork Airport consists in general of reconstructing the airport's existing lighting appurtenances. Specific work to be completed includes installing new components and reviewing in the equipment enclosure of the north hangar and constructing new lighting circuits to the airport rotating beacon, the airport segmented circle, and the runway lights. All circuits will be installed in new conduits in utility trenches constructed between the equipment enclosure and the various components. The new conduit trenches will be constructed along the existing direct burial electrical wiring courses and will consist of excavating approximately 24" deep trenches from 12" to 24" wide. The conduits will be bedded and backfilled to 6" below grade with graded sand and the trenches topped off with native excavated materials.	MND	03/22/2007
2007022093	Oak Park (Tentative Subdivision Map, Annexation, General Plan, Zone Change No. 0601) Oroville, City of Oroville--Butte The project is to develop 222 single family lots on 100 acres with the homes being clustered on approximately 35 acres; 5 acres being dedicated to the City for a park and +/- 60 acres being dedicated as permanent open space. A General Plan Amendment is being proposed that will designate the site as Residential Medium Density allowing up to 6 dwelling units per acre. A Planned Unit Development Overlay (PD) will be applied to the current R-1 Single Family Residential zoning classification, which results in a combined zoning district of PD/R-1.  The project would require the annexation of three of the four parcels (approximately 95 acres) on the Oak Park project site as well as annexation of 19 adjoining parcels to create a logical boundary between the City and County to prevent a remaining island of unincorporated land. The allowable density on the	MND	03/22/2007

	southernmost parcel, currently in the City Limits, will be applied to the remaining three parcels within the proposed Oak Park Subdivision.		
2007021089	Minor Subdivision 1167-05 San Benito County --San Benito To subdivide 10 acres into two parcels of 5 acres each.	<b>Neg</b>	03/22/2007
2007021093	Orosi Public Utility District and Sewer Systems Rehabilitation Orosi Public Utility District --Tulare The project will replace portions of the existing distribution system, valves, fire hydrants, water services, paving, and appurtenances. The District's existing sewer collection system is also old and failing. The collection system failures include both the structural integrity of the pipe and sealing at the pipe joints. These failures result in groundwater intrusion within the collection system and increased flows at the wastewater treatment facility. The proposed project includes replacement of existing pipeline, house laterals and manholes, along with the realignment of some sewer pipelines, trench repaving and appurtenances.	<b>Neg</b>	03/22/2007
2007021094	Vesting Tentative Parcel Map # 11155 Kern County Planning Department Bakersfield--Kern A Vesting Tentative Parcel map proposing to divide a 235.69 acre parcel into eight 20-acre parcels, one 30-acre parcel, and a 39.15 acres designated remainder.	<b>Neg</b>	03/22/2007
2007021095	Sidewalk Lighting and Marquee Project California State University, Long Beach Long Beach--Los Angeles The project consists of installation and operation of sidewalk lighting and a marquee in the vicinity of the Carpenter Performing Arts Center and the Martha Knobel Dance Center in the northern portion of the campus. Light standards will be installed from the Martha Knobel Dance Center to Merriam Way and new lights heads will be installed around the Pyramid. The marquee will be installed next to the Carpenter Performing Arts Center ticket office, and will contain an LCD lighting monitor with running messages about upcoming performances.	<b>Neg</b>	03/22/2007
2007021097	Proposed Construction of Tehachapi Bicycle and Pedestrian Path Kern County Tehachapi--Kern The project consists of the construction of Class 1 and 2 bicycle/pedestrian paths, signage, and the installation of benches and picnic tables. Improvements of the existing dirt paths would include grading and paving a Class 1 bike/pedestrian path (12-foot-wide asphalt concrete path), located along and within the Water Canyon drainage channel and ancillary facilities, including the installation of benches and picnic tables at various locations along the path and rest areas. A proposed park and ride site would be located at the southeast corner of Red Apple Avenue and Reeves Street. The project implements the policies and goals of the Golden Hills Specific Plan, the Kern County General Plan, the City of Tehachapi General Plan and Old Towne Specific Plan. The project is related to the Red Apple Avenue construction project which provides a transportation link between communities in the Tehachapi area. The Kern County Board of Supervisors adopted a MND on June 8, 2004 which analyzed the Red Apple Avenue project which is adjacent to the proposed Class 1 path, and is accordingly used as a reference document. The Golden Hills Community Services District has indicated	<b>Neg</b>	03/22/2007

	intersection improvements. Shoulder widths will vary from 2 feet to 8 feet, with 8 feet provided wherever feasible given ROW and topographic constraints. All work will occur within State ROW, post mile 25.00 to 25.55.		
2006111118	<p>Scott Road Booster Station and Pipeline Project Eastern Municipal Water District --Riverside</p> <p>Eastern Municipal Water District (EMWD) intends to construct a booster station and water transmission pipeline in the community of Menifee. Ongoing development growth within the community of Menifee is straining the capability of EMWD to keep up with current demands. As a result, EMWD is proposing the Scott Road Booster Station and Pipeline Project to improve the transmission and circulation capacity of potable water to relieve the demand on existing water infrastructure within EMWD's service area.</p> <p>The project will consist of a 5,000 gallon per minute booster station and the installation of approximately 12,000 linear feet of water transmission pipeline to convey potable between the 1627 and 1700 pressure zones to serve development in the Menifee area. The booster station will be located on the southwest corner of the intersection of Scott Road to just east of Menifee Road where it will tie-in to an existing pipeline. The pipeline will also extend north from the pump station within El Centro Lane to the intersection of El Centro Lane and Wickerd Road, it will then extend east along Wickerd Road to the intersection of Wickerd and Leon Roads where it will tie-in to an existing pipeline. Upon completion, the project will convey and provide potable water to meet demand within the Menifee community.</p>	<b>NOD</b>	
2006121015	<p>State Route 41/Culvert Installation and Drainage Project [KP 11.3/12.7 (PM 6.9/7.9)] Caltrans #6 --Madera</p> <p>Caltrans proposes to rehabilitate the drainage at two culvert locations approximately 3.7 miles north of Avenue 12 to 1.4 miles south of the SR 41/145 intersection. The work includes modifying surface water drainage and replacing the existing culvert at post mile 6.9. The drainage channel would be modified at the existing culvert at post mile 7.9. Drainage channel excavation would be a maximum depth of two feet (0.61 meters) at the culvert opening; the channel would then gradually slope away from the culverts and level off with the existing streambed elevation.</p>	<b>NOD</b>	
2006121020	<p>State Route 41/Culvert Installation and Drainage Rehabilitation Project [KP 13.4 (PM 8.3)] Caltrans #6 --Madera</p> <p>Caltrans proposes to rehabilitate the drainage channel and culvert approximately 1.4 miles north of the Friant-Madera Canal to 1 mile south of the SR 41/145 intersection. The work includes modifying surface water drainage and replacing the existing culvert. The drainage channel would be excavated to a maximum depth of four feet at the culvert opening; the channel would then gradually slope away from the culvert and level off with the existing streambed elevation.</p>	<b>NOD</b>

2006121053	Cawston Elementary School San Jacinto Unified School District San Jacinto--Riverside The San Jacinto Unified School District proposes to acquire an approximately 12.2-acre site to construct and operate the new Cawston Elementary School within Tentative Tract No. 33420. The proposed new elementary school is intended to help accommodate the student population generated as a result of the new residential development within the Tentative Tract and surrounding areas. The school would serve grades kindergarten through fifth and have an enrollment capacity of 850 students. The elementary school is projected to open in the fall of 2008 and is anticipated to operate on a traditional calendar, classes begin in early September and end in mid/late June the following year.	<b>NOD</b>	
2006121075	Atascadero City Hall Repair and Rehabilitation Project Atascadero, City of Atascadero--San Luis Obispo The project will result in the reconstruction of Atascadero's City Hall Building by assisting with the design, construction documents, and actual construction of the building.	<b>NOD</b>	
2006121102	Avenue 40 Well Site (Talavera Off-site Well No. 1) Project Coachella Valley Water District Indio--Riverside This project includes the drilling, testing, casing, and development of a domestic water well, and installing of approximately 300 feet of 12-inch ductile iron pipe. The pipeline portion of this project includes installation of a pipeline at the well site, which is located south of Avenue 40 on the east side of Taylor Place. The pipeline will extend north and enter Avenue 40 and tie into an existing 18-inch CVWD water main north of the Avenue 40 centerline. The existing line continues west to Adams Street. The well portion of the project includes the construction of a well site that contains a 300 horsepower motor, 2,000 gallon per minute pump and other appurtenances. The well and pumping plant will be incorporated into the existing domestic water system.	<b>NOD</b>	
2006122016	Valley High School Master Plan Dublin Unified School District Dublin--Alameda The project consists of the implementation of Phases 1 and 2 of the Valley High School Master Plan including the renovation of two existing buildings and the construction of four modular classrooms. An existing play area would be eliminated. Parking facilities would remain as they currently exist.	<b>NOD</b>	
2007012041	Coastal/KMS Commercial Center Roseville, City of Roseville--Placer The applicant requests an environmental determination for a Design Review Permit for the construction of 9 light industrial buildings totaling 160,200 sf and 13 office buildings totaling 72,900 sf. The applicant also requests approval of a Tentative Subdivision Map to subdivide two parcels into twenty-three parcels.	<b>NOD</b>

2005111054	Vesting Tentative Tract No. 61553 Los Angeles City Planning Department Los Angeles, City of--Los Angeles The project applicant requests approval of a zone change, specific plan exception and vesting tentative tract map to permit the development of 37 detached residential condominiums. One existing residence would be demolished.	<b>EIR</b>	04/09/2007
2007012091	Draft Environmental Documents Regarding Mammal Hunting and Trapping Fish & Game Commission -- Deer hunting, elk hunting, methods of take for big game, nongame birds and nongame mammals, upland game in California.	<b>EIR</b>	04/09/2007
2007021106	Ehsan Residence San Diego, City of San Diego, La Jolla--San Diego A Coastal Development Permit and Site Development Permit to construct a three-story, single-family residence (approximately 6,907 square feet) with attached two-car garage on a vacant 0.88 acre site containing Environmentally Sensitive Lands (ESL). The project site is designated for very low-density residential use, and is located at 5710 La Jolla Mesa Drive in the RS-1-5 (Residential - Single-Unit) zone, Coastal Overlay Zone (Non-Appealable), Parking Impact Overlay Zone and Coastal Height Limitation Overlay Zone within the La Jolla Community Plan Area and Local Coastal Program.	<b>MND</b>	03/23/2007
2007021107	Calabasas Trails Master Plan Calabasas, City of Calabasas--Los Angeles The Trails Master Plan is a long-range trail planning document that will be used in guiding the creation and maintenance of a citywide trail network. The Plan contains guidelines for the design and construction of trails as well as the maintenance and management of trails. The Plan identifies existing trails in the City and provides guidance on the preferred location of new trails. The Master Plan is not intended to show precise alignments or locations of physical improvements. Precise locations will be developed on a case-by-case basis following appropriate review procedures. The Plan identifies a trail network in the City serving virtually every neighborhood, and providing connections to activity centers (community centers, parks, and civic facilities) as well as nearby regional parks and open spaces. The trail network will also provide connections to the regional trails in the area.	<b>MND</b>	03/23/2007
2007022095	Outdoor Advertising Sign Removal and Relocation Berkeley, City of Berkeley--Alameda The proposed project includes the removal of 6 existing off-site advertising signs and construction of 1 new double-sided 14-foot x 48-foot LED (light-emitting-diode) off-site advertising sign at 1695 East Shore Highway. Implementation of this project requires an amendment to the City's Sign Ordinance (Berkeley Municipal Code [BMC] Title 20) and a Relocation Agreement between the City of Berkeley and CBS Outdoor.	<b>MND</b>	03/23/2007

2007022097	Home Mark Homes (EG-05-915) Elk Grove, City of Elk Grove--Sacramento The proposed project, Home Mark Homes, consists of: - A rezone from AR-5 (Agricultural-Residential Zone 5 Acres Min.) to AR-2 (Agricultural-Residential Zone 2 Acres Min.); and - A parcel map to divide the existing single 10 +/- acre parcel and create four new lots and one remainder lot, each totaling 2.0 +/- gross acres.	<b>MND</b>	03/26/2007
2007021105	Scripps Cypress Pointe San Diego, City of --San Diego Community plan amendment, multi-habitat planning area boundary line adjustment, rezone, planned development permit, site development permit, and a vesting tentative map to allow the demolition of an existing single-family residence and the construction of 83 single-family homes on an approximately 40.8-acres site located at 11495 Cypress Canyon Road in the Scripps Miramar Ranch Community Planning Area. The rezone would change the zoning from AR-1-1 to RS-1-7. The MHPA boundary -line adjustment would result in 18.7-acrs, which would adjust 0.2 acre on-site and 18.5 acres off-site. The project would include the extension of Cypress Canyon Road from the southeast portion of the site to the northwest portion of the site.	<b>NOP</b>	03/23/2007
2007022096	Southpointe Redevelopment Project Stockton, City of Stockton--San Joaquin The proposed project involves requests for the City's approval of applicants for Rezoning from Industrial to Commercial Downtown, Use Permits, and a Tentative Map from the entire 8.0 acre site. The proposed project is to develop 152 three-story multi-family condominiums along the north side of West Weber Avenue. The property is bounded by the Stockton Channel to the north, Mormon Slough and Interstate 5 (I-5) over-crossing to the west, and Weber Avenue to the South, and is adjacent to the City's proposed Waterfront Promenade and Marina Project.	<b>NOP</b>	03/23/2007
2007021104	Water Plan for Pinetree Water System Newhall County Water District --Los Angeles The Newhall County Water District (NCWD) intends to adopt a Master Plan for the orderly development of water distribution facilities. The Pinetree Water System is one of four water systems operated by the NCWD. The service area comprises approximately 4,800 acres located in the eastern portion of Canyon Country and is several miles east of the intersection of Sand Canyon Road and Soledad Canyon Road.	<b>Neg</b>	03/23/2007
2007021108	Culver Drive/Walnut Avenue Intersection Improvement Irvine, City of Irvine--Orange The City of Irvine proposes to improve the Culver Drive/Walnut Avenue intersection with the addition of a northbound through lane from Walnut Avenue to Scottsdale Drive. The proposed project would require widening the roadway and curb return on the east side of Culver Drive and north side of Walnut Avenue west of Culver Drive. The widening improvements have been designed to accommodate an increase in traffic volumes for left-turn, through, and right-turn	<b>Neg</b>	03/23/2007

	movement.		
2006112076	Foothills Tennis Village Bike Path Roseville, City of Roseville--Placer The Foothills Tennis Village Bike Path is a proposed 600 foot long paved off-street multi-use path that would be open to bicyclists and pedestrians. The project will connect with existing bike paths to the east and west, forming a 1/2-mile long continuous segment of bike path from Country Club Drive to Foothills Boulevard.	<b>NOD</b>	
2007011027	New Single-Family Residence at 23681 Malibu Colony Drive Malibu, City of Malibu--Los Angeles Construction of new, 3,358.1 square foot, single-family residence which will be comprised of a 2,667.9 square foot second floor. An attached two car garage is proposed with two unenclosed parking spaces in the front yard setback area. Associated hardscape, walls and view permeable trellises affixed to the residence are also within the scope of this project.	<b>NOD</b>	
2007012054	Copper Cove Booster Pump and Water Transmission Pipeline Project Calaveras County Water District --Calaveras The proposed project would construct and operate a water transmission pipeline and booster pump station to remedy distribution demands identified as part of the Calaveras County Water District's (CCWD) Copper Cove Water System Master Plan Update. The transmission line would convey water from the current water treatment plant (WTP) on Little John Road to the two 500,000-gallon tanks at the top of a hill on Charm Stone Way. The proposed 20-inch diameter water transmission line would be approximately 12,000 feet in overall length with about half the length of pipeline crossing through privately-owned Oak studded grasslands. The remaining half of the pipeline and booster pump station would be placed within existing streets, public right-of-ways, and utility easements. The project is intended to replace and upgrade an existing 30-year old 10-inch diameter water transmission line and construct a new booster pump station as well as increase the capacity of these water transmission and pumping facilities.	<b>NOD</b>	
2007028197	Replace Sewer Lift Stations at Loafer Creek Parks and Recreation, Department of --Butte Project replaces three existing sewer lift stations with new packaged lift stations including controls, sump basins and mechanical equipment. Each site has been previously disturbed and excavated for original installation of concrete sumps and utilities. Work includes removing each station's concrete sump cover, controls and mechanical equipment and installing a new fiberglass sump into each existing sump.	<b>NOE</b>	
2007028198	Department of Fish and Game, Huichica Creek Unit Flood Damage Repairs, Napa-Sonoma Marshes State Wildlife Area, Napa County Fish & Game #3 --Napa, Sonoma The proposed project will repair the damage resulting from high winds and torrential rains during the December 2005/January 2006 winter storms. One water control structure was torn from its mountings and was moved by the force of the water. The levee is now undermined where the pipe crosses the levee and tide water is bypassing the pipe.	<b>NOE</b>

	Angeles-Glendale Water Reclamation Plant (LAGWRP) in the City of Glendale to the Taylor Yard in northeastern Los Angeles. The linear alignment of the proposed project travels in a southeasterly direction beginning at the southern terminus of an existing recycled water pipeline from the LAGWRP, which is located near the intersection of Glendale Avenue and San Fernando Road. The remainder of the proposed route follows San Fernando Road, Cypress Avenue, and Division Street.		
2007021115	North City Center San Diego Community College District San Diego--San Diego Acquisition of property for the purpose of upgrading and expanding the District's facilities.	<b>MND</b>	03/26/2007
2007022098	Nanook Well Site Rio Vista, City of Rio Vista--Solano The applicant, Rosetta Resources Operating LP, proposes to drill and test the Nanook gas well, located in the City of Rio Vista. The project comprises three phases: site preparation; drilling, completion and testing; and production. Wells depths are proposed to be approximately 5,500 to 8,500 feet. The proposed drilling pad area is approximately 0.84 acre.	<b>MND</b>	03/26/2007
2007022099	Trigger Well Site Rio Vista, City of Rio Vista--Solano The applicant, Rosetta Resources Operating LP, proposes to drill and test the Trigger gas well, located in the City of Rio Vista. The project comprises three phases: site preparation, drilling, completion and testing, and production. Well depths are proposed to be approximately 5,500 to 8,500 feet. The proposed drilling pad area is approximately 0.84 acre.	<b>MND</b>	03/26/2007
2007022100	Ancil Hoffman Groundwater Extraction and Treatment "L" System Project Carmichael Water District --Sacramento The proposed project is a component of the existing groundwater containment and treatment program undertaken through a cooperative agreement between Aerojet and Carmichael Water District (CWD). In response to groundwater contamination, the proposed project is designed to arrest the spread of a contamination plume, thereby reducing impacts to public drinking water supply well including CWD wells.	<b>MND</b>	03/26/2007
2007022101	Hanna Court Warehouses American Canyon, City of Napa, Vallejo--Napa Design review permit for development of two warehouse/distribution buildings totaling 718,071 square feet.	<b>MND</b>	03/26/2007
2006052071	Claybank Adult Detention Facility Expansion Project Solano County Fairfield--Solano The Detention facility's current design and layout do not meet State of California Board of Corrections standards. Facility deficiencies include undersized day rooms, obstructed visual surveillance, inadequate medical facilities, non-compliance with disabled access requirements, and numerous leaks in the roof. The proposed expansion of the Claybank Adult Detention Facility is a two-phased	<b>NOP</b>	03/26/2007

	project that would be built between 2008 and 2025. The EIR will provide project-level analysis of Phase I; however, because Phase II is still in initial planning stages, the EIR will evaluate this phase as part of the cumulative analysis. Subsequent environmental review for Phase II may be required at a later date.		
2007021116	City of Pomona General Plan Update Pomona, City of Pomona--Los Angeles The City has initiated a comprehensive update of its General Plan, which is an opportunity for community members to explore long-term goals and development opportunities. The General Plan, required by the State of California, serves as the constitution for the physical development of the City. The role of the General Plan is to identify current and future needs in land use, housing, transportation, public services, and environmental quality, which are issues that affect the quality of life of all residents.	<b>NOP</b>	03/26/2007
2007022103	Coastal Marine Aquaculture Program Fish & Game Commission -- The Program will consist of updated California Department of Fish and Game regulations concerning coastal marine aquaculture, and PEIR is being prepared per the requirements of Senate Bill 201. The PEIR will identify and evaluate potential environmental impacts of construction and operation of marine aquaculture facilities, as well as discuss thresholds of significance and mitigation measures to reduce these impacts. The impacts and mitigation measures identified in the PEIR will provide a scientific basis for identifying necessary updates to the Department's existing regulatory program.	<b>NOP</b>	03/26/2007
2007022104	Mercy General Hospital and Sacred Heart Parish School's Mixed Use Project Sacramento, City of Sacramento--Sacramento The project consists of the demolition of existing buildings for the construction of 20 residential units, 123,350 sq. ft. of hospital building, and associated parking facilities, and a 41,600 sq. ft. K-8 school.	<b>NOP</b>	03/26/2007
2007022106	The Murphy Ranch Residential Ranch Milpitas, City of Milpitas--Santa Clara The project will consists of two separate developments, herein after referred to as Murphy Ranch South and Murphy Ranch North. The Murphy Ranch South development will be on the southern portion of the project site and will consist of 285 for-sale single-family attached dwelling units (townhouses) with attached two car garages on 14.15 acres. The Murphy Ranch North development will be on the northern portion of the project site and will consist of 374 rental apartment units on 7.58 acres. The apartment buildings will be four stories with a five-story parking garage in the interior of the site.	<b>NOP</b>	03/26/2007
2005021034	Water Well - Application # C-04-327 Fresno, City of Fresno--Fresno Conditional Use Permit Application No. C-04-327 requests authorization to construct Water Well Pump Station No. 179, which will pump ground water into the City's municipal water distribution system.	<b>Neg</b>	03/26/2007

## CEQA Daily Log

<b><u>Documents Received on Friday, February 23, 2007</u></b>			
2006101021	Water Well - Application # C-06-131 Fresno, City of --Fresno Conditional Use Permit Application No. C-06-131 requests authorization to construct Water Well Pump Station 135, which will pump ground water into the City's municipal water distribution system.	<b>Neg</b>	03/26/2007
2007021109	Exposition Corridor Light Rail Transit Project - Phase 2 Exposition Metro Line Construction Authority Culver City, Santa Monica--Los Angeles Phase 2 of the Exposition Corridor Light Rail Transit Project would extend transit service in the Exposition Corridor from the terminus of the under-construction Phase 1 project (at the Venice/Robertson station in Culver City) to a planned end-of-line station near 5th Street and Colorado Boulevard in Santa Monica. Under consideration for Phase 2 are two alignment options and the following project alternatives: Light Rail Transit, Bus Rapid Transit, No-Build, and Transportation System Management.	<b>Neg</b>	04/02/2007
2007021110	Improvement District No. 4 Electrical Substation Construction Kern County Water Agency --Kern Construction of an electrical substation to provide additional power for treatment to supply high quality surface water for urban and industrial use within the Bakersfield area.	<b>Neg</b>	03/26/2007
2007021111	Transfer of State Water Project Table A Amounts from Tulare Lake Basin Water Storage District to Coachella Valley Water District and Desert Water Agency Coachella Valley Water District --Riverside, Kings, Tulare Permanent transfer of 7,000 acre-feet per year of State Water Project (SWP) Table A Amounts from Tulare Lake Basin Water Storage District (Tulare Lake) to Coachella Valley Water District (CVWD) and Desert Water Agency (DWA). The transfer would be accomplished using existing facilities and involves no construction of any kind. Potential effects on the CVWD and DWA service areas, the Sacramento-San Joaquin Delta, Colorado River and SWP of the water transfer have been fully addressed in a previous Program EIR for the Coachella Valley Water Management Plan and State Water Project Entitlement Transfer, completed in September 2002 (CVWD, 2002). This ND tiers off that document.	<b>Neg</b>	03/26/2007
2007021112	Sunset Reservoir Ion Exchange Project Pasadena, City of Pasadena--Los Angeles The proposed project includes installation of an ion exchange perchlorate treatment system (Ion Exchange system), a booster pump station, a chloramination system, and piping at the City's Sunset Reservoir site. The proposed Ion Exchange system will initially be designed to remove perchlorate contamination from groundwater produced from either the Copelin and Sunset Wells or the Bangham Well by itself. Currently, average perchlorate concentrations at the Copelin and Sunset Wells exceed the California Department of Health Services' (CDHS) Notification Level for perchlorate.	<b>Neg</b>	03/26/2007

<b><u>Documents Received on Friday, February 23, 2007</u></b>			
2007022102	Sphere of Influence Annexation and Rezoning Rancho Cordova, City of Rancho Cordova--Sacramento The proposed project involves a rezone, tentative subdivision map, special development permit, design review, and development agreement. The site consists of approximately 41.5 acres which would be rezoned from AG-80 (Agricultural) to 15.8 acres of RD-10 (low density residential) and 25.7 acres of O (Open Space). The tentative subdivision map would create 153 single family lots, pedestrian paseos, a neighborhood park, open space, and a wetland preserve.	<b>Neg</b>	03/26/2007
1988110208	Navy Broadway Complex U.S. Navy SAN DIEGO--SAN DIEGO City Council approval denying appeals and upholding the determination of the Development Services Department, adopted by the Centre City Development Corporation on October 25, 2006, that the Navy Broadway Complex project is adequately addressed by prior environmental documents and no new environmental review is required.	<b>NOD</b>	
2005101128	Change of Zone 05-05 and Tentative Subdivision Map (Willow Bend) El Centro, City of El Centro--Imperial The project includes a change of zone from County A2U to City R-1, single-family residential and a tentative subdivision map in order to accommodate the development of 134 single-family residential lots, a detention basin and a public park.	<b>NOD</b>	
2006071129	VTTM No. 54081 Diamond Bar, City of Diamond Bar--Los Angeles 20-lot subdivision with 16 lots for single-family detached homes and 4 letter lots for open space.	<b>NOD</b>	
2006111046	General Plan Amendment 06-06, General Plan Amendment 06-07, Tentative Parcel Map 18273, and Location and Development Plan 06-09 Adelanto, City of Adelanto--San Bernardino The applicant, McGuire Construction, is proposing General Plan Amendment 06-06, General Plan Amendment 06-07, Tentative Parcel Map 18273, and Location and Development Plan 06-09. General Plan Amendment 06-06 proposes changing the General Plan Circulation Element for the realignment of Koala Road to have a transition bisect the property. Currently, the City of Adelanto General Plan Circulation Element shows the transition for Koala Road to occur at a point approximately two miles south of the project site, affecting over twenty parcel owners. The purpose of the General Plan Amendment is to reduce the affected number of parcel owners as well as adopt a right of way transition which meets current safety standards. General Plan Amendment 06-07 proposes changing the Safety Element due to the realignment of Koala Road, so that the Master Plan Drainage Channel will run parallel along the western boundary of the right of way. The Tentative Parcel Map is the filing for the subdivision of one parcel into two parcels due to the realignment of Koala Road. Location and Development Plan 06-09 is a proposal for the construction of a total of 47,500 square feet of Manufacturing Buildings and 2,475 square feet of office area on approximately 80 acres of land. Parking and loading zones have been conditioned to meet current	<b>NOD</b>

	development standards.		
2006112069	Roseburg Long-term Streambed Alteration Agreement Fish & Game #1 Weed--Shasta, Trinity, Siskiyou Capital Improvement Project (PE-00104) includes an environmental assessment and concept plans to replace the deteriorating infrastructure. The work includes street tree replacement, related curb and gutter replacement, road repairs, and median landscape replacement. Construction is planned to be funded and phased with the improvements from Alma to Middlefield being the first area to receive improvements.	<b>NOD</b>	
2006112113	Feldman Minor Subdivision and Special Permit Humboldt County Community Development Services Arcata--Humboldt A minor subdivision of an approximately 30.74 acre parcel into two equally sized parcels of approximately 15.37 acres. The property is currently developed with three single family residences (legally constructed) and on-site wastewater treatment systems. Two of the residences, sharing a septic system, will be situated on Proposed Parcel 2. Proposed Parcel 1 is developed with the third residence, a separate septic system and a well serving all three dwellings. A Special Permit is requested to permit the smaller residence on proposed Parcel 2 as a secondary dwelling unit. No trees are proposed to be removed and no grading is proposed.	<b>NOD</b>	
2006121048	Attendance Boundary Realignment for Lytle Creek Development San Bernardino County, Superintendent of Schools Rialto--San Bernardino The project proposes to realign the school district attendance boundary within the Lytle Creek North Planned Development Project. The realignment would involve a territory transfer between the Rialto and San Bernardino City Unified School Districts. The intent of the proposed realignment is to realign lot boundaries so that no homes within the Lytle Creek Development would be divided between districts.	<b>NOD</b>	
2007012055	PLN2006-00061; 610 Aladdin Ave; San Leandro San Leandro, City of San Leandro--Alameda A recycling company, Alameda County Industries, is requesting approval to consolidate the trans-loading of recyclable materials around their current Direct Transfer Facility from 150 tons per day to 280 tons per day to include 80 tons per day of green waste and 50 tons per day of mixed construction and demolition materials. The proposed increased tonnage would result in 54 additional vehicle trips per day, for an overall total of 386 vehicle trips per day at the facility. The proposed 386 total vehicle trips per day includes 132 tons per day, and has been operating at the site since 1995 under a separate conditional use permit.	<b>NOD</b>	
2007028201	Alisal Ranch Well Abandonment & Relocation Regional Water Quality Control Board, Region 3 (Central Coast), San Luis Obispo Solvang--Santa Barbara This project proposes to abandon and fill Well No. 1 within the active riverbed channel of the Santa Ynez River. The Well will be filled with bentonite clay chips, and it will be relocated outside the active riverbed channel with a new Well No.3.	<b>NOE</b>

2006061005	Valley Region Elementary School No. 10 Los Angeles Unified School District --Los Angeles The project involves the construction of approximately 50,000 square feet of building space for 650 two-semester seats for students in grades kindergarten through five, with approximately 59 full- and part-time faculty and staff. The elementary school campus would include 26 classrooms, a multi-purpose room, kitchen, lunch shelter, library, and administration offices. The proposed project would also include recreational space, separated from the existing middle school's recreational facilities, including a small turf area and hardcourts. A separate playground area within the proposed elementary school campus would be provided for the kindergarten students.	<b>EIR</b>	04/11/2007
2006091160	City of Pasadena Enterprise Zone Designation Pasadena, City of Pasadena--Los Angeles The City of Pasadena's Enterprise Zone is a State of California Tax Incentive Program designed to stimulate business development and employment growth. The Zone's objective is to reduce the cost of doing business by offering state tax credits to businesses that are located within the zone. Tax benefits are realized through the reduction in business expenses that result from a reduction in the cost of hiring employees, purchasing of qualified equipment and reduction in the cost of hiring employees, purchasing of qualified equipment and reduction in state taxes for financial institutions when approving a loan.	<b>EIR</b>	04/11/2007
2006111074	Old Creek Road Bridge Crossing Improvement Project Ventura County --Ventura The County of Ventura Public Works Agency, Transportation Department (the County), in cooperation with the California Department of Transportation (Caltrans), the Federal Highway Administration, and the California Department of Fish and Game (CDFG), proposes to replace the Old Creek Road crossing over San Antonio Creek. The proposed project would replace the existing dry-weather crossing with a two-lane, multi span bridge across the creek. The proposed project would take place on Old Creek Road approximately 300-feet east of SR-33 near the community of Oak View in Ventura County. The purpose of the Old Creek Road Bridge Crossing Improvement Project is to improve the safety and operation of the bridge over San Antonio Creek. Specific objectives of the proposed project include improving local access and circulation, enhancing vehicle safety while crossing the creek, and enhancing the passage of steelhead trout in San Antonio Creek.	<b>FIN</b>

2006092019	Harris & "J" Street Boys & Girls Club Eureka, City of Eureka--Humboldt The Boys & Girls Club is requesting approval of conditional use permit to authorize the deconstruction and salvage of the existing building, and the construction of a new approximately 32,670 square foot two-story Boys & Girls Club facility. The proposed first floor would be approximately 28,000 square feet and would include a kitchen, a gymnasium, and rooms for recreational activities that could include art, music, movie viewing, exercise, games, and other similar activities. The proposed second floor would be approximately 4,670 square feet and would provide offices for the Boys & Girls Club, and storage area. The height of the proposed structure will be approximately 52 feet and setbacks of 10-15 feet along the west and north property lines are proposed. Approximately 40 off-street parking spaces are proposed; and improvements to the existing bus stop and enclosure are proposed.	<b>NOP</b>	03/27/2007
2007021123	Wente Brothers Vineyards Monterey County Greenfield--Monterey Use Permit to convert an existing juice facility to a winery use, by remodeling existing structures and the addition of two process waste water treatment ponds totaling 2.74 million gallons and grading of 15,000 cubic yards.	<b>Neg</b>	03/27/2007
2007021124	Cabrillo Bridge Replacement Project Santa Barbara, City of Santa Barbara--Santa Barbara The project would replace the existing structurally deficient Cabrillo Boulevard Bridge over Mission Creek and improve the hydraulic conveyance of Mission Creek from State Street to the Pacific Ocean. The banks of Mission Creek from Cabrillo Boulevard to State Street would be rebuilt in compliance with the approved Lower Mission Creek Flood Control Project.	<b>Neg</b>	03/27/2007
2007022107	H50, LLC - Minor Subdivision - MS0710 Del Norte County Planning Department --Del Norte The applicants propose to divide a 46.7-acre parcel into a 7.5-acre parcel and a 39.2-acre remainder. Both parcels will have access from Wilson Lane. The project area is served with water from the Smith River Community Services District. On-site sewage disposal needs will be met by on-site wastewater disposal systems. A small drainage, which flows in an east-west direction over the northern portion of the project site, will have a buffer to development as a condition of the project approval. An Agricultural buffer will also be a condition of approval.	<b>Neg</b>	03/27/2007
2007022108	Recreation Campground San Joaquin County Lodi--San Joaquin Recreational campground and recreational vehicle park. Project includes 6,000 sq. ft. office/reception building, 2,100 sq. ft. reception hall, 2,500 sq. ft. managers building, four 1,500 sq. ft. restroom/shower buildings, a 900 sq. ft. picnic area, and 147 parking spaces. Project is enclosed within an 8-foot high masonry wall.	<b>Neg</b>	03/27/2007

<b><u>Documents Received on Monday, February 26, 2007</u></b>			
	<ul style="list-style-type: none"> <li>- Decommission of 1,076 linear feet of existing poorly aligned, worn and rutted formal and "volunteer" (unauthorized) trail. Reclaimed surfaces will be restored to natural contours.</li> <li>- Construction of 5 interpretive stations, each with an information panel and a picnic table or bench.</li> <li>- Construction of 2 puncheons (elevated crossings) over existing drainages. These will span the creek bed and channel.</li> </ul>		
2006122055	<p>Williams Elementary School Expansion Williams Unified School District Williams--Colusa</p> <p>The District is proposing the expansion of Williams Elementary School on a 1.3-acre parcel located adjacent to the western boundary of the existing school site. The expansion would take place on an as needed basis to cope with population growth pressures within the District.</p>	<b>NOD</b>	
2006122065	<p>East Contra Costa County Courthouse Judicial Council of California Pittsburg--Contra Costa</p> <p>Construction of a new courthouse for the Superior Court of California, County of Contra Costa. The project site will cover approximately four acres. The proposed new courthouse will be two stories tall, have approximately 71,000 square feet of space for seven courtrooms and other Court-related facilities, and will have approximately 200 parking spaces. The City of Pittsburg will provide additional parking spaces.</p>	<b>NOD</b>	
2007029026	<p>Ivy Street Bridge Replacement Murrieta, City of Murrieta--Riverside</p> <p>The City proposes to replace the existing two-lane dip-crossing with a five-span, cast-in-place bridge structure that would carry one lane of traffic across the creek in each direction. The bridge and its approach roadways would provide a curb-to-curb width of 40 feet consisting of two 12-foot-wide lanes and two 8-foot-wide shoulders. The structure would include a 5-foot-wide sidewalk and barrier railing along one side and a barrier railing only along the other side; the total width of the bridge deck would be 47 feet and 9 inches. The grade of Ivy Street would also be raised to accommodate the approaches to the bridge and tie in with the existing road surface. Consequently, the roadway work would extend beyond either side of the bridge approximately 200 feet in the west and into the intersection of New Clay Street in the east. An existing 15-inch sewer line underneath the road would be relocated inside the bridge structure. The roadway work would largely occur within the 60-foot-wide City right-of-way. The project would require the acquisition of right-of-way for channel grading, slope easements, and approach fills. Parcels to be partially acquired as part of this project include 909-090-001 to the south of Ivy Street and 906-200-011 and 906-200-012 to the north of Ivy Street. A 4-inch sewer line, 24-inch water line, and 4-inch gas line are located underneath the existing road, and overhead electrical lines along the southern/eastern side of Ivy Street. Under the proposed project, the sewer, water, and gas lines would be relocated inside the bridge structure. Construction is anticipated to require 12 months.</p>	<b>NOD</b>

2007021127	2008 Owens Valley PM10 Planning Area Demonstration of Attainment State Implementation Plan Great Basin Air Pollution Control District --Inyo The City of Los Angeles Department of Water and Power is proposing to construct additional shallow flooding, moat and row, and gravel dust control measures on the lake bed with the goal of implementing the controls necessary to meet federal PM10 standards by the year 2010. The proposed project includes 14.6 square miles within the 110-square-mile dry Owens Lake bed. The proposed project is located approximately 5 miles south of the community of Lone Pine and approximately 61 miles south of the City of Bishop. The Great Basin Unified Air Pollution Control District has identified that the primary goal of the proposed project is to reduce PM10 emissions via dust control measures to attain the National Ambient Air Quality Standards for PM10 by the year 2010, promulgated by the US Environmental Protection Agency pursuant to the federal Clean Air Act Amendments of 1990.	<b>NOP</b>	03/28/2007
2007021132	Rider Distribution Center Project Perris, City of Perris--Riverside The proposed project would involve grading and site preparation on a 28.2 acre site, and construction and operation of the Rider Distribution Center Project for light industrial and warehouse distribution uses. The project would consist of one tilt-up concrete building totaling approximately 642,072 square feet. Four small office areas would be constructed at each of the four building corners. The project would include landscaping and onsite extension of existing utilities within Rider Street and Redlands Avenue.	<b>NOP</b>	03/28/2007
2007021133	Oceana Retirement Facility (Parcel OT) and Holiday Harbor Courts (Parcel 21); R2006-01510 & R2006-02726 Los Angeles County Department of Regional Planning --Los Angeles Proposed are two development project requiring Condition Use Permits, Coastal Development Permits, Parking Permits, and Plan Amendments to the Marina Del Rey Specific Plan for the transfer of development potential between Lots OT, 21, and 20. The Plan Amendment on Lot OT is to designate the parcel for Hotel land use with a mixed-use overlay and to transfer 114 hotel spaces and 5,000 s.f. of office space from the Admiralty Development Zone to the Oxford Development Zone. The project also proposes to build a six-story, 114-unit retirement facility with 5,000 s.f. of retail space with a 248-space, partially subterranean parking structure and to relocated 94 of its 186 existing and required parking space to lot 21. There are various non-native trees and shrubs on-site that will be removed. The proposed project on Lot 21 is to demolish two existing buildings and replace them with a new five-story, 29,348 s.f. marine commercial building with a 447-space parking structure.	<b>NOP</b>	03/28/2007
2007021135	Monrovia General Plan Update - Amendments to the General Plan Land Use and Circulation Elements Monrovia, City of Monrovia--Los Angeles The proposed project consists of: 1) amendments to the City of Monrovia General Plan Land Use and Circulation Elements to facilitate development of a transit	<b>NOP</b>	03/28/2007

	village and mixed use development of a transit village and mixed-use development, 2) any subsequent revisions to Title 17 (Zoning) of the Monrovia Municipal Code required to implement the Land Use Element amendments, and 3) any subsequent adoption of other regulations or guidelines to implement the Land Use Element amendments.		
2007021125	Amendments to the Zoning Ordinance (Off-Street Parking and Loading Regulations), the Cannery Row Local Coastal Program Land Use Plan and Lighthouse Area Plan Ap Monterey, City of Monterey--Monterey The project's purpose is to establish a more rational approach to assessing parking impacts in the Cannery Row and Lighthouse Avenue areas that will better enable the City to accommodate three separate types of parking demand: customer parking, employee parking and residential parking. The subsequent amendments to the Land Use Plans will coordinate the relevent land use documents. As a separate item, the City Council has pre approved the establishment of a residential parking permit program in the lower New Monterey Neighborhood that will be available upon approval of the residents to eliminate the potential that employee's will park on residential streets.	<b>Neg</b>	03/28/2007
2007021126	North of River Sanitary District No. 1 Annexation No. 90 North of the River Sanitary District --Kern The project is an annexation to the North of River Sanitary District No. 1 of approximately 107 +/- acres. The District will be able to provide sewage services to said land upon annexation approval.	<b>Neg</b>	03/28/2007
2007021130	Crown Valley Medical Plaza Laguna Niguel, City of Laguna Niguel--Orange Development of the 2.4-acre site with a 84,615-square foot medical office building (resulting in a floor area ratio of approximately 1.0). The proposed podium-style medical office building would contain four floors of leasable space and one mechanical penthouse, all constructed on top of a five-level parking garage with 513 parking spaces. The maximum building height, measured from the lowest finished grade at the exterior of the parking structure, is 124 feet. Project implementation will necessitate the following discretionary actions by the City of Laguna Niguel: (1) General Plan Amendment (GPA 05-01); (2) Site Development Permit (SP 05-05P); and (3) Use Permit (UP 05-09P).	<b>Neg</b>	03/28/2007
2007021131	General Plan Amendment 2006-1 Hollister, City of Hollister--San Benito The proposed project includes minor corrections and amendments to Maps 2, 4, and 7 of the City of Hollister General Plan and minor text amendments for clarification. Map amendments are proposed to alter the land use designation in order to allow existing businesses and multi-family land uses to continue as conforming land uses, to rename the Rural Residential designation to Residential Estate to avoid confusion with the San Benito County General Plan Land Use Map and to change the land use designation of an area outside of the FEMA 100-year flood plain from Open Space to Low Density Residential. Text amendments are proposed to correspond to the map amendments and/or to correct or clarify the text.	<b>Neg</b>	03/28/2007

2007022110	<p>Central Terrace Final Map Subdivision, FMS-06-08/PUD-06-04/CUP-06-18 Humboldt County Planning Department --Humboldt</p> <p>A Final Map Subdivision and Planned Unit Development of an approximately 3.6 acre parcel. A total of 25 lots are proposed, consisting of 18 single family lots and 7 multifamily lots, which will allow for a total of 66 dwelling units. The single family lots range in size (not including common areas) from 2,051 square feet to 2,347 square feet. The multifamily lots range in size from 2,593 to 8,011 square feet. A Planned Unit Development is proposed to allow for reduced setbacks and lot sizes while providing for landscaping, 4 trash/recycling areas and common parking areas. Pursuant to Section 322.5-1 et seq. H.C.C., an exception to the solar access standards is requested for proposed multifamily lots A-1, A-2, and A-3. Pursuant to Section 314-6.5 H.C.C. a Conditional Use Permit is needed to allow for single family residences on proposed lots C-1 through C-18. The project includes a Street Name Assignment to name the proposed new unnamed access road that is to serve the proposed subdivision a name that is found acceptable by the Planning Division.</p>	<b>Neg</b>	03/28/2007
2007022112	<p>Proposed Single-Family Dwelling at 100 Juanita Avenue, Pacifica, California Pacifica, City of Pacifica--San Mateo</p> <p>The project applicant and property owner proposes to construct a single-family residence of approximately 5,000 square feet and an attached garage of 600 square feet, with 750 square feet unfinished enclosed space adjacent to the garage on a 28 acre vacant parcel. The dwelling is proposed as three levels with a sloped roof. In addition to the four bedrooms and five bathrooms, the applicant is also proposing an open kitchen/family/dining area, living room, office, entry, and a recreation room. The living area for the second level would be approximately 3,500 square feet, and the third and topmost floor would be approximately 1,500 square feet. The total height of the proposed building would be 35 feet.</p>	<b>Neg</b>	03/28/2007
2007022113	<p>Friends of the Dunes Coastal Development Permit, Conditional Use Permit, Lot Line Adjustment and Special Permit for Establishment of the Humboldt Bay Coastal Ed Humboldt County Community Development Services --Humboldt</p> <p>A Lot Line Adjustment between two parcels of 30.81 acres (APN 506-111-20) and 24.64 acres (APN 506-111-11) each. The parcels will exchange approximately 13.53 acres to result in one parcel of 17.28 acres and the other of 38.17 acres. The larger parcel is currently developed with a residence and two barns. The smaller parcel is currently vacant. The Lot Line Adjustment will facilitate a Conditional Use Permit to allow the existing residence to be permitted as the Humboldt Bay Coastal Education Center and Reserve. The permit also includes establishing existing trails and the restoration of approximately 30.5 +/- acres encompassing beach and dune habitat pampas grass that threaten endangered species and rare plant communities. A Coastal Development Permit is required for all development within the Coastal Zone. A Special Permit is requested to establish parking standards based on existing use levels at the Manila Community Center.</p>	<b>Neg</b>	03/28/2007

<b><u>Documents Received on Tuesday, February 27, 2007</u></b>			
2007022116	<p>Coliseum BART to Bay Trail Connector Alameda County Public Works Agency Oakland--Alameda</p> <p>The proposed project would incorporate both Class I bicycle and pedestrian pathway facilities, and would involve crossing railroad tracks, a slough and a freeway (I-880). The proposed trail segment would be approximately one mile long. The trail would start at the Coliseum BART station and connect to the Amtrak Coliseum Station via San Leandro Street and 73rd Avenue, in Oakland. From the Amtrak station, the trail would cross the railroad tracks either at-grade (if feasible), or via a new connection to the existing flood control maintenance road and would involve upgrading the gravel roadway surface to asphalt including installation of signs and pavement markings. A small bridge that crosses a tributary to Daemon Slough would be upgraded to allow for pedestrian and bicycle use. At Coliseum Way the trail would follow Coliseum Way to 66th Avenue involving crosswalk and signalization modifications. The trail would cross I-880 using the existing 66th Avenue freeway over-crossing, involving minor modifications to the existing sidewalk (increasing the width to 12 feet), narrowing the lane widths, and installation of a barrier between the sidewalk and the traffic lanes. This proposed facility would then link with the Bay Trail at the western end of 66th Avenue.</p>	<b>Neg</b>	03/28/2007
2007022117	<p>Lind Brothers Mortuary Project Sacramento Metropolitan Air Quality Management District --Sacramento</p> <p>The applicant is requesting an Authority to Construct permit from the Sacramento Metropolitan Air Quality Management District (SMAQMD or District) to allow for installation of a crematory at the existing Lind Brothers Mortuary, located at 4221 Manzanita Avenue. The proposed project involves the development of internal and external improvements to an existing mortuary on the site. Internal improvements include the installation of a cremator in the covered garage. External improvements include the installation of a handicap parking sign and handicap parking space. The cremator would include an exhaust stack that would extend 18 feet above ground level, with 5 feet extending above the existing one-story roofline.</p>	<b>Neg</b>	03/28/2007

2006111062	Improvement District No. 1, Water System Rehabilitation Project Three Rivers Community Services District --Tulare Installation of pipeline, valves, water services, storage tank, wells, paving, fire hydrants, pressure clarifier and appurtenances.	<b>NOD</b>	
2006111076	Inland Empire Utilities Agency (IEUA) Magnolia Channel Improvement Project Inland Empire Utilities Agency Chino--San Bernardino The IEUA, in conjunction with the City of Chino, County of Orange, County of San Bernardino, and other agencies and private parties, is proposing to make habitat, flood control, and water quality improvements to Magnolia channel as part of this project. The project will be implemented in phases which include improvements to the Magnolia channel and a portion of the channel southerly of El Prado Road, as well as create and enhance native habitat and improve surface water quality in Magnolia Channel and the Prado Basin in general.	<b>NOD</b>	
2006112043	Van Sickle Island Levee Rehabilitation Project Reclamation District 1607 Antioch--Solano The proposed levee rehabilitation project involves the placement of dredged reuse material (and other imported clean fill) along the crown and interior side of the Van Sickle Island levee, Reclamation District 1607. Fill will be placed to strengthen the existing levee. Off-site mitigation will be conducted on Meins Landing.	<b>NOD</b>	
2006121115	March Wastewater Reclamation Facility Phase 2 Expansion Western Municipal Water District Riverside--Riverside Western's March Wastewater Reclamation Facility Phase 2 Expansion includes the expansion of the March Wastewater Reclamation Facility (WRF) from its current capacity of 1.0 million gallons per day (MGD) to a capacity of 3.0 MGD, and the addition of tertiary treatment facilities. The project also includes the construction of approximately 2,400 feet of 20" reclaimed water pipeline in El Sobrante Road, connecting the existing reclaimed water system to an existing gravity sewer interceptor feeding the West Riverside Treatment Plant.  Construction of the reclaimed water pipeline in El Sobrante Road is anticipated to include the following activities: asphalt cutting and removal, trench excavation, installing pipeline, connecting to the existing reclaimed water system at the easterly terminus, connecting to an existing gravity main at the westerly terminus, backfilling, compacting, and asphalt replacement.  Surplus reclaimed flows will be delivered to the West Riverside Treatment Plant via the proposed reclaimed water pipeline in El Sobrante Road, which will provide a connection to the West Riverside Treatment Plan in order to discharge surplus treated water, particularly during winter months when less reclaimed water is needed for irrigation.	<b>NOD</b>	
2006122075	Tavern Road Mixed Use Development Project Mammoth Lakes, City of Mammoth Lakes--Mono The Planning Commission approved a request to construct an affordable housing and commercial development comprised of 31 affordable housing units, approximately 5,400 square feet of retail space, and approximately 4,100 square	<b>NOD</b>

	feet of office space. The project will include two stories of underground parking which will include tandem parking and the replacement of all the existing Park-and-Ride spaces (100 Park-and-Ride spaces total). The proposal includes the development of air space lease apartments and commercial office/space.		
2007029025	Streambed Alteration Agreement 1600-2006-0530-3/1-04NTMP-009 SON Forestry and Fire Protection, Department of --Sonoma The Operator proposes the improvement and construction of road and skid trail crossings in a seasonally-flowing tributary to Timber Cove Creek. The watercourse crossings are associated with the Non-Industrial Timber Management Plan (NTMP) 1-04NTMP-009 SON. The NTMP area is located approximately ten miles north of the town of Jenner in the Timber Cove area of Sonoma County. Timber Cove Creek flows into the Pacific Ocean and is not known to support anadromous fish due to a topographic barrier at the mouth of the creek, however, rainbow trout ( <i>Oncorhynchus mykiss irideus</i> ) have been documented in the creek in the past. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0530-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, John Rosson of Timber Cove Ranch.	<b>NOD</b>

2000111022	<p>Termino Avenue Drain Los Angeles County Department of Public Works Long Beach--Los Angeles</p> <p>The project entails the construction of a new underground storm drain system, which would provide increased flood protection within the project area. The new drainage system would convey storm flows directly to Marine Stadium, located immediately southeast of Colorado Lagoon, and would have the capacity to convey the 50-year frequency storm event. The mainline of the proposed drainage system would run along a former Pacific Electric (PE) Railway right-of-way and across several streets. A lateral storm drain would extend along Termino Avenue from the PE right-of-way to Anaheim Street. Aside from the new outlet structure at Marine Stadium, the proposed storm drain components would all be located underground. Upon completion of the project, the alignment would be returned to its existing condition.</p>	<b>EIR</b>	04/13/2007
2005122088	<p>Mercy San Juan Medical Center Use Permit and Zoning Agreement Amendment Sacramento County Citrus Heights--Sacramento</p> <p>The project consists of the following entitlement requests from Sacramento County:</p> <ol style="list-style-type: none"> <li>1. A Use Permit to allow the expansion of an existing hospital facility on 25.78 +/- acres in the BP zone. The expansion includes the addition of a 6-story, 124,000 +/- square-foot, 110-bed patient care building; a 5-story, 471-space parking garage and 40,000 +/- square-foot medical office building; and a 3-story, 259-space parking garage.</li> <li>2. A Use Permit to allow the height of the 3-story garage to exceed 24 feet, located within 100 feet of a residential zone.</li> <li>3. A Zoning Agreement Amendment to amend Condition No. 2 of the prior Zoning Agreement, adopted by Resolution No. 62-506, to allow the proposed parking garage/medical office building to be located within 80 feet of the center line of Coyle Avenue.</li> <li>4. A Release from the prior Zoning Agreement, adopted by Resolution No. 62-506, to be replaced by a Zoning Ordinance.</li> </ol>	<b>EIR</b>	04/13/2007
2006061065	<p>Oak Hills Marketplace Yucaipa, City of Yucaipa--San Bernardino</p> <p>The proposed project includes a General Plan Amendment and a Preliminary Development Plan for a regional shopping center totaling roughly 613,000 square feet of building space on 61.33 acres of land. The proposed shopping center includes, but is not limited to, two commercial anchors, additional retail and miscellaneous commercial uses, restaurants and a cinema complex. The project includes onsite parking with access via Live Oak Canyon Road. The proposed project may also involve: realignment and channelization of Wildwood Creek; a new dedicated public street heading eastward in the southern portion of the site; relocation or replanting of oak trees; the use of soil from nearby hillsides to fill in the existing bed of Wildwood Creek; and improvements to Live Oak Canyon Road which is designated as a Scenic Corridor in the City's General Plan. The proposed project is adjacent to, but separate from the Freeway Corridor Specific Plan.</p>	<b>EIR</b>	04/13/2007

2007022123	Sierra Rock Diamond Quarry Reclamation Plan Mining and Geology Board, Department of Conservation Diamond Springs, Placerville--El Dorado The proposed project is the implementation of a reclamation plan for Diamond Quarry. The project site has been fully disturbed by ongoing limestone mining operations since the 1850s. No changes to the existing mining operations or site boundaries are proposed. Mining operations are expected to cease in 2067. Following completion of mining, reclamation would involve the removal of mining equipment and facilities exclusively related to mining, implementation of erosion and sedimentation control best management practices, regarding and revegetation, and ensuring final slope stability to support post-reclamation end land use. A post-reclamation quarry lake will be created to capture surface runoff from the site. Allowed post-reclamation land use includes "Rural Region" industrial uses as specified in the El Dorado County General Plan. As currently planned, a graded pad suitable for low-intensity use would be developed adjacent to the quarry lake.	<b>MND</b>	03/29/2007

## CEQA Daily Log

Documents Received during the Period: 02/16/2007 - 02/28/2007

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, February 28, 2007</u></b>			
2007028234	Avenue of the Giants Sudden Oak Death Treatment Parks and Recreation, Department of --Humboldt Remove California bay laurel ( <i>Umbellularia californica</i> ), the principal host plant supporting sporulation of <i>Phytophthora remorum</i> , the organism that causes Sudden Oak Death, from an area between the South Fork Eel River and the Avenue of the Giants in Humboldt Redwoods State Park. It is anticipated that by removing California bay laurel throughout the project area that the spread of the pathogen north will be allowed.	<b>NOE</b>	
2007028235	Steel Plate Pipe Repair Caltrans #2 --Trinity Using only state funds the California Department of Transportation will repair the twelve-foot diameter structural steel plate pipe on Little Grass Valley Creek at Buckhorn Station Road on State Route 299, approximately 3.9 miles west of Buckhorn Summit, in Trinity County.	<b>NOE</b>	
2007028236	Widen Shoulders SR 3 Caltrans #2 --Siskiyou Widen the existing (1.2m) shoulders to 2.4m along State Route 3 from PM 47.5 to PM 47.8. As the south side shoulder was partly used to construct a right turn lane, this project proposes to re-establish the required 234m wide shoulder by extending the pavement 3.4m from the existing edge of pavement on the north side of the road.	<b>NOE</b>	
2007028237	Gilsizer Slough Culvert Replacement at Del Monte Avenue Fish & Game #2 Yuba City--Sutter The project consists of the removal of a 42-inch corrugated metal culvert pipe and replacing it with two 48-inch diameter corrugated metal culvert pipes.	<b>NOE</b>	
2007028238	Shade Sails (06/07-SD-26) Parks and Recreation, Department of --San Diego This project consists of the installation of two, side by side, hyperbolic shaped, polyethylene material "shade sails" (approximately 990 square feet total size) suspended by five (5) eight inch diameter steel poles (painted black) and set in 2'-6" diameter 9" deep (maximum size) concrete footings and also with one attachment to The Visitor Center located at the Tijuana River National Estuarine Research Reserve.	<b>NOE</b>	
2007028239	West Fork Carson River Cleanup 1600-2007-9911-R2 Fish & Game #2 --Alpine Removal of woody debris and flotsam deposited on the bank of the West Fork Carson River to minimize risk of flooding during high water flows, subsequent damage to residence on the property, and to minimize additional bank erosion.	<b>NOE</b>
